ADDITIONAL INFORMATION	

ANNEXE

In 2006, based on my experiences working at international projects, I decided to take over a project for founding an internationally renowned tourism brand and company, which will follow the highest industry standards and later on transfer those outside Slovenia, mostly south-eastern Europe.

In 2007 I took over tourism branch of Unior d.d. – Program tourism and introduce Unitur Hotel & Resort brand (www.unitur.eu). Immediate action was focused on establishing highly competent team of experts for development and market spa and wellness tourism and tourism in mountain regions, which is developing in Thermal and Spa Resort Zreče and ski resorts Krvavec and Rogla.

Irrespective of understaffed conditions and with minor investments in infrastructure, we've managed to increase company's income. Among biggest investments was SE Central Europe's biggest ski fun park, modern cross-country skiing polygon, and enlargement of ski resort Rogla, which brought us World Cup in cross country, snowboarding and alpine Paralympic world cup IPC 2010 (<http://www.roglaworldcups.eu/>). We renewed the concept of spa Terme Zreče together with opening new Atrij hotel in 2012.

Team of more than 400 employs and experts was successfully bidding several EU development projects which enable us some major investments in sports infrastructure and development of successful international promotion

In 2009 we were selected as a partner for developing destination resort Durmitor Žabjak in Montenegro which was finished in 2011.
